Title	Urban Audit 2001 - Area management - View
Date	2011-12-19
Date type	Publication
Date	2011-12-19
Date type	Creation
Abstract	This view service represents the boundaries of the European cities participating in the Urban Audit. The cities are defined at several conceptual levels: - the core city, using an administrative definition of the Larger Urban Zone (LUZ), approximating the functional urban region and for 8 capitals, the City Kernel, a concept introduced to improve comparability between large cities. The data set used in this service is the Urban Audit 2001, European Commission - Eurostat/GISCO dataset based on EuroBoundaryMap 2001 (Eurogeographics) and spatial data supplied by Urban Audit delegates from Member States. The view service follows WMS 1.3.0 protocol. It supports WGS84 (EPSG:4326) and ETRS89 (EPSG:4258) coordinate reference systems. The service operates on data between a scale of 1:1.000.000 and a scale of 1:3.000.000. The coverage is the EU-27 plus Norway (NO) and Switzerland (CH).

Resource constraints

Use limitation	Generalised dataset derived from EuroGeographics GI data and other sources. The view service may be used if: The source is acknowledged, AND The data is not used for commercial purpose. An acknowledgement must be visible on any printed or electronic publication using the data. The acknowledgement notice, depending on the language used in the publication, should be given as follows: English: Administrative boundaries: © EuroGeographics © FAO (UN) © TurkStat French: Limites administratives: © EuroGeographics © FAO (UN) © TurkStat German: Verwaltungsgrenzen: © EuroGeographics © FAO (UN) © TurkStat. For publications in languages other than English, French or German, the translation of the Acknowledgement notice in the language of the publication must be used. The source, copyright and branding will be acknowledged if the geographic data are used in any products. The acknowledgement will be displayed as "@copyright text" on the map or in an acknowledgement text. The size of the text on the map will be proportional to the size of the map. The maximum length of copyright texts on electronic maps (web maps or electronic applications) is 20 characters. No copyright text will be applied for online icon maps with less than 150 x 150 pixels.
